To Whom It May Concern,

I am writing this reference letter on behalf of Will Dellaechaie and his Team of experts at Summit Restoration. I am the Vice President and qualified Officer for Ute Construction and have twenty nine years of experience in the Restoration business. Ute Inc. is a fifty year old Las Vegas based company specializing in insurance reconstruction. Summit Restoration is the premier emergency service restoration company for the Las Vegas Valley. Will Dellaechaie the owner at Summit, holds all certifications and credentials in Mold Remediation and Emergency service water mitigation. I have worked with other restoration companies in the past but our long and ongoing relationship with Summit Restoration is excellent. Not only do they surpass other companies in this industry but they always go the extra mile to ensure quality, cleanliness, pride and workmanship. We are always pleased with their performance and consider them as partners in this industry. I had a water loss on my own personal residence as was very impressed with the care and professionalism they gave me and how my family and home was treated.

I highly recommend Summit Restoration to any and all who have the need for their expert services.

Sincerely,

Michael Kelly  
Vice President
